Zoning Department: Brian Nodolny

3 letters were sent out last week for un mowed grass and weeds.

Worked on the issue with 20 Howard RD.

Received 3 complaints and started my investigation of them.

Residents that want to do projects on their properties are reporting that they are having trouble getting ahold of anyone at the health department. For a PIE (Property Improvement evaluation).

The property could be up for sheriff auction in the future. The quickest way for the property to be secured is to have the fire department secure wood to the open entrances and post a notice of its condition. Regarding the vehicle on the same property, the zoning will need to follow the adopted junk vehicle process. A search was completed with probate court and it was confirmed no living relatives assigned to the home and vehicle through an estate.

Beau Miller indicated the zoning needs to follow the process and ensure we do not miss any steps in the process; we do not miss any of the timeline before any resolutions are to be made by the trustees.
